Instructions to Move R Projects to R Studio

Downloading your R projects from Jupyter

Step 1 Navigate to jupyter.utoronto.ca and log in with your UTORid credentials.

Step 2 You will land on your directory page. From your directory page, create a new folder.

Step 3 Move all R projects (e.g., *Project_1.git, Project_2.git, Project_3.git*) into the new folder (*R_Test_Project_2* in this demo).
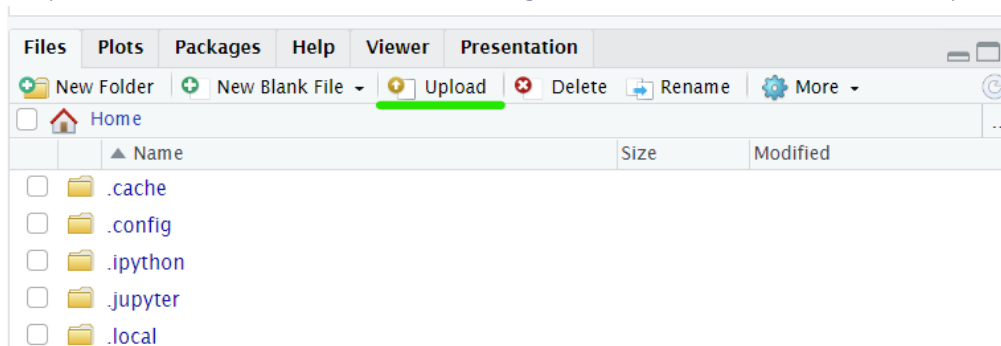

Step 4 Once you have moved your files, open the folder and click *Download Directory*. A *.zip* file will be downloaded to your local computer.

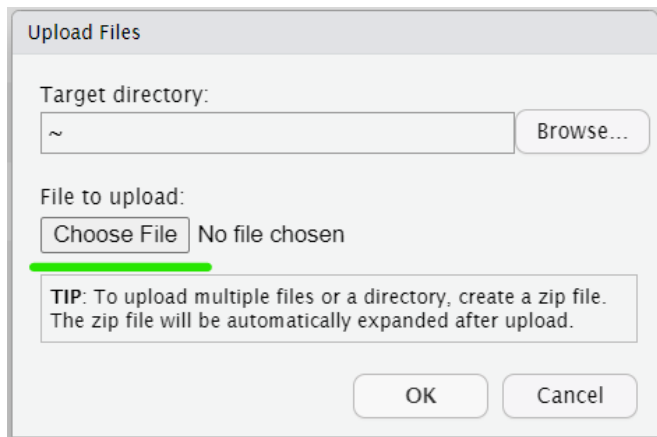

Uploading your R projects to RStudio

Step 1 Navigate to r. datatools.utoronto.ca and log in with your UTORid credentials.

Step 2 Locate the menu on the middle right side of the screen. Click the *Upload* button.

Step 3 Click *Choose File* button and select the *.zip* file you just downloaded.

Step 4 The *.zip* file will be automatically expanded on R Studio.

Step 5 Open the folder and you can see all your R projects.
